Story

The International Conference IDT 2019 is held in countries of Visegrad region traditionally. Its aim is to bring together researches, developers, teachers from academy as well as industry working in all areas of information and digital technologies.

Industry Applications Are Welcome!

In an attempt to promote the dissemination of recent industrial developments and the interaction between industry and academia, IDT 2019 will encourage the submission of industry oriented technical applications. These special contributions will be submitted and published in a format that includes a maximum 1-page of abstract. The evaluation of these contributions will address the innovation/originality of the industrial application, the quality of presentation and the technical interest to the community working in the field.

Topics

The exhibition is focused on a wide range of applications of computer systems. Topics of interest include but are not limited to:

- o Digital signal processing
- o Communication and control systems and networks
- o Measurement systems and instrumentations
- o Hardware and software solutions
- o Medical Image Analysis
- o Biomedical Visualization
- o Computer-Aided Diagnosis
- o Telemedicine, Telehealth
- o Testing and fault-tolerant systems
